Owner Self Inspection of Fire Pit Application for Certification

Owner Name				
C L Address		Filing		Lot

This form is for the property owner to confirm compliance with the Crystal Lakes Road & Recreation Association Fire Pit Specifications and Open Fires Policy dated May 16, 2015. Please carefully consider the points below and initial compliance. A volunteer agent will verify your application.

Owner Initials		Agent Initials
	The red CLVFD address sign must be displayed at the entrance of the property . This sign identifies the lot and aids in locating the property for First Responders. Failure to display this sign will preclude inspection. (Signs available at the CL Office/\$7.00 donation to the CLVFD.) NOTES:	
	Fire Pit is constructed: solid walls with a minimum depth of 16". Note: If the pit is constructed of rock or brick, the inside must be sealed with masonry or a metal sleeve to prevent air flow. NOTES:	
	Fire Pit is not larger than 36" square, octagonal, or in diameter AND has a solid cover of non-flammable material that fits well enough to prevent embers from escaping, and heavy enough not to blow away or securable with non-flammable straps. NOTES:	
	Fire Pit is located in the center and bottom of an imaginary cylinder 15' in radius with a height of 15'. Within the area, there should be no flammable material. <i>Exception:</i> Permanent wood benches outside the mineral area (see next item). NOTES:	
	An area at least 5' around the fire pit is cleaned down to mineral soil to preclude vegetation or forest duff as an ignition source. NOTES:	
	Fire wood for use in the fire pit is stored outside the 15' area. NOTES:	
	Owner(s) accepts responsibility for fire pit use by guests or renters.	
	Owner(s) has read, understands, and agrees to comply with the CL Fire Pit Specifications and Open Fire Policy dated May 16, 2015.	
	I hereby give the CL Fire Permit inspector permission to enter my property for the purpose of inspecting my Fire Pit and taking a photo of the Fire Pit for verification.
